

Test Candidate M3

San Francisco, CA, US | test_m3_049e15eb-69a7-4668-b180-0b8b6de63527@example.com | 555-123-4567 |
https://www.linkedin.com/in/testcandidatem3

Professional Summary

Highly accomplished and results-driven Senior Software Engineer with 8+ years of experience in developing, deploying, and optimizing Artificial Intelligence (AI) and Machine Learning (ML) models in production environments. Proven expertise in full-stack development, robust quality control, and automating data analytics pipelines. Proficient in Python, C++, and JavaScript, with deep understanding of data science principles, linear algebra, algorithms, and statistics. Adept at leveraging frameworks like PyTorch and TensorFlow for scalable solutions and experienced in web development using Flask, Angular, and React for interactive ML applications. Committed to monitoring output data quality in production environments to ensure high performance and reliability.

Skills

Core Skills: Python, C++, JavaScript, SQL, PyTorch, TensorFlow, Scikit-learn, NumPy, Pandas, Artificial Intelligence, Machine Learning, Data Science, Linear Algebra, Algorithms, Statistics, Model Deployment, Data Analytics Automation, React, Angular, Flask, ASP.Net Core, RESTful APIs, HTML5, CSS3, PostgreSQL, MongoDB, Git, Docker, AWS, Jupyter Notebooks, VS Code, Google Colab, Quality Control

Professional Experience

AMD | Santa Clara, CA, US Jan 2024 - Jun 2026

Senior Software Engineer, Machine Learning

Technologies: Python, PyTorch, TensorFlow, C++, AWS, Docker, SQL, React

- Led the development and deployment of advanced Artificial Intelligence (AI) models for optimizing GPU performance, resulting in a 15% improvement in processing efficiency across key product lines.
- Architected and implemented a new React-based frontend for internal ML model monitoring dashboards, enhancing real-time data visualization and user interaction for engineering teams.
- Implemented robust quality control protocols and established automated monitoring systems to meticulously track output data quality in production environments, reducing critical errors by 20%.
- Developed scalable ML/AI tool development pipelines using Python and C++, integrating complex algorithms and linear algebra concepts to enhance model training and inference capabilities.

NVIDIA | Santa Clara, CA, US Jan 2021 - Dec 2023

Software Engineer, Machine Learning

Technologies: Python, TensorFlow, NumPy, Pandas, JavaScript, React, PostgreSQL

- Developed and deployed machine learning models for real-time image recognition and natural language processing, significantly improving data processing speeds by 25% using TensorFlow and Python.
- Designed and implemented interactive web development interfaces for ML model visualization and interaction using React and JavaScript, enhancing user accessibility and data interpretation.
- Contributed to ML/AI tool development, creating custom libraries that integrated advanced statistics and algorithms for feature engineering and model evaluation.
- Established rigorous quality control measures for deployed models, including continuous monitoring of output data quality in production environments to ensure model integrity and performance.

Google | Mountain View, CA, US Jan 2018 - Dec 2020

AI Software Developer

Technologies: Python, Scikit-learn, C++, SQL, React, ASP.Net Core

- Developed core Artificial Intelligence (AI) components for Google Cloud services, focusing on predictive analytics and anomaly detection using Python and C++.
- Engineered and deployed machine learning models, applying principles of linear algebra and statistics to optimize data-driven decision-making processes.
- Collaborated on web development projects, building user interfaces with React and ASP.Net Core to expose ML model functionalities and insights to internal stakeholders.
- Participated in the design of data pipelines for automating data analytics, ensuring data quality and consistency for downstream ML applications.

Certifications

- Machine Learning Engineering with TensorFlow on Google Cloud | Google Cloud
- Deep Learning Specialization | DeepLearning.AI (Andrew Ng)
- Professional Certificate in Python for Data Science and AI | IBM
- Advanced React and Redux Development | Udemy

Education

Stanford University

Master's in Computer Science 2017 **University of California, Berkeley**

Bachelor of Science in Computer Engineering 2016
